SQ001 tickets

	Ticket	Developer	Completion Criteria	Demo
1	 ISR-15095 - Create UI for aggregated unread executions (Scheduled searches) DONE	Glen Hein	A user is able to access a page that displays all of the Scheduled Search Changes since the last time they accessed those results.	
2	 ISR-15093 - Aggregated execution results endpoint (Scheduled Searches) DONE	@ Gallagher, Shannon C. [US-US] [NON-EMP]		
3	 ISR-15097 - Update notifications for execution results (Scheduled searches) DONE	@ Wire, Keith [US-US] [NON-EMP]	The notification for scheduled search execution contains a link to take the user to the aggregated unread results execution page.	
4	 ISR-13586 - Topic Notifications (Replies) DONE	@ North, Joseph [US-US] [NON-EMP]	<ol style="list-style-type: none"> When a user replies to a post within a topic, the creator of the post is notified. <ol style="list-style-type: none"> If the user still has access to the space: "UserName replied to your 'TopicName' post in 'SpaceName'" If the user does not have access to the space anymore: "UserName replied to a post you no longer have access to <Request Access Action link>" There will be a "Topic Replies" notification preference under spaces that these notification adhere to. 	
5	 ISR-15609 - Restricting ability to edit and delete other user's posts/replies in topics. DONE	@ Bird, Alexa [US-US] [NON-EMP]	<ol style="list-style-type: none"> "Description" is renamed to something more indicative that it is the main content "Description" is in the forefront of the topic, rather than the comments/replies "Description" should be required Rename "post" to "comment" Users cannot edit/delete other users' comments and replies 	
6	 ISR-6497 - 2D Map - Make drawing interaction more user friendly (drag and drop) DONE	@ Vargas, Pablo [US-US] [NON-EMP]	<ol style="list-style-type: none"> Add the ability to drag and drop a geometry onmap. Single click (on any part of the geometry) or other suitable convention should put the Geometry in 'interactive' mode. In 'interactive' mode, user hovering over a geometry shows a hand symbol, and user can drag and drop. (additional details in description field) On releasing click, geo is dropped at the current location on map - "grab" cursor will reappear until cursor is moved away from the geo, then the cursor will go back to the regular "arrow". <p>Note: limited to the viewport (if user needs to move outside the viewport, they will need to zoom out) no wrapping</p>	
7	 ISR-15174 - 3D Map - Make drawing interaction more user friendly (drag and drop) DONE	@ North, Joseph [US-US] [NON-EMP]		
8	 ISR-14291 - Spaces - Add Upload to Create Menu DONE	@ Wire, Keith [US-US] [NON-EMP]	<p>Create button in Spaces will open its existing menu but with an option to 'Upload' at the bottom. This will option the upload dialogue as per Create for addition of informal products to ISR1 and to that Space.</p> <p>Once shared with a Space, users with access to that Space should automatically have equivalent access to those item(s).</p>	
9	 ISR-14729 - Releasability - Add None Option DONE	@ Nguyen, Mai T. [US-US] [NON-EMP]	<p>Releasability made mandatory across the interface wherever a classification of Protected or higher is selected, following the creation of a None option for this field.</p> <p>Releaseability is Mandatory when an Item is created. Releaseability is not Mandatory when editing items.</p> <p>When the releasability dropdown appears, there is no default option selected, which will force users to open the dropdown and select either None or a releasability.</p>	

	Ticket	Developer	Completion Criteria	Demo
			If a None option is selected, it will de-select any other already selected releasability. If a releasability is selected after None is selected, it will deselect the None option. In other words, the 'None' field should not be able to be applied with other releasabilities.	

CxS&Q-Warranty tickets

	Ticket	Developer	Completion Criteria	
1	 ISR-15758 - Search area releasabilities not being saved on initial creation DONE			
2	 ISR-15694 - Owner is unable to downgrade space permissions for Saved Searches when owner access is given through Space permissions DONE			
3	 ISR-15764 - Saving shared saved search as new saved search overwrites original DONE			

CxS&Q-Free tickets

	Ticket	Developer	Completion Criteria	
1	 ISR-15875 - Configure - Releasability - Add None Option DONE
